Subject: State of Connecticut's Permanent Commission on the Status of Women (PCSW)

Hello Legislators of Connecticut,

I just heard the State of Connecticut's Permanent Commission on the Status of Women (PCSW) is about to lose its funding and status as an independent entity focusing on women's rights, women's pay equity, women's representation in STEM fields, Women's representation in government, and other women's issues that are essential to all women in Connecticut and our daughters. PCSW has been an irreplaceable asset to the women of Connecticut. PCSW is about to lose its funds, lose its identity, and lose its power and position. Please present my objections to this lost of funding and provide the support to allow PCSW to continue their role as a funded permanent commission for the rights of current women residents and the future women of Connecticut.

Thank you for your time and attention to this matter.

Kind regards,
Bethanie
